

SUNYI

INNOVATIVE • ACOUSTIC • COLLABORATIVE • PRIVACY

NOISE

is one of the greatest causes of stress of our times. It surrounds us and puts a strain on our bodies. Our ability to relax and our concentration greatly depend on the acoustic environment in which we **LIVE** and **WORK**. The balance in the acoustics creates a tranquil setting and provides a means to focus on the matter at hand.

ACHIEVING ACOUSTIC COMFORT IN THE MODERN DAY OFFICE

DID YOU KNOW ?

Lack of sound privacy is the biggest frustration for office worker -

ARCHED AND CURVED

SUNYI provides the opportunity to create curved shape into the panel based system. With the pre-fabricated format panel boards, it can create surfaces in soft waved forms.

COLLABORATION

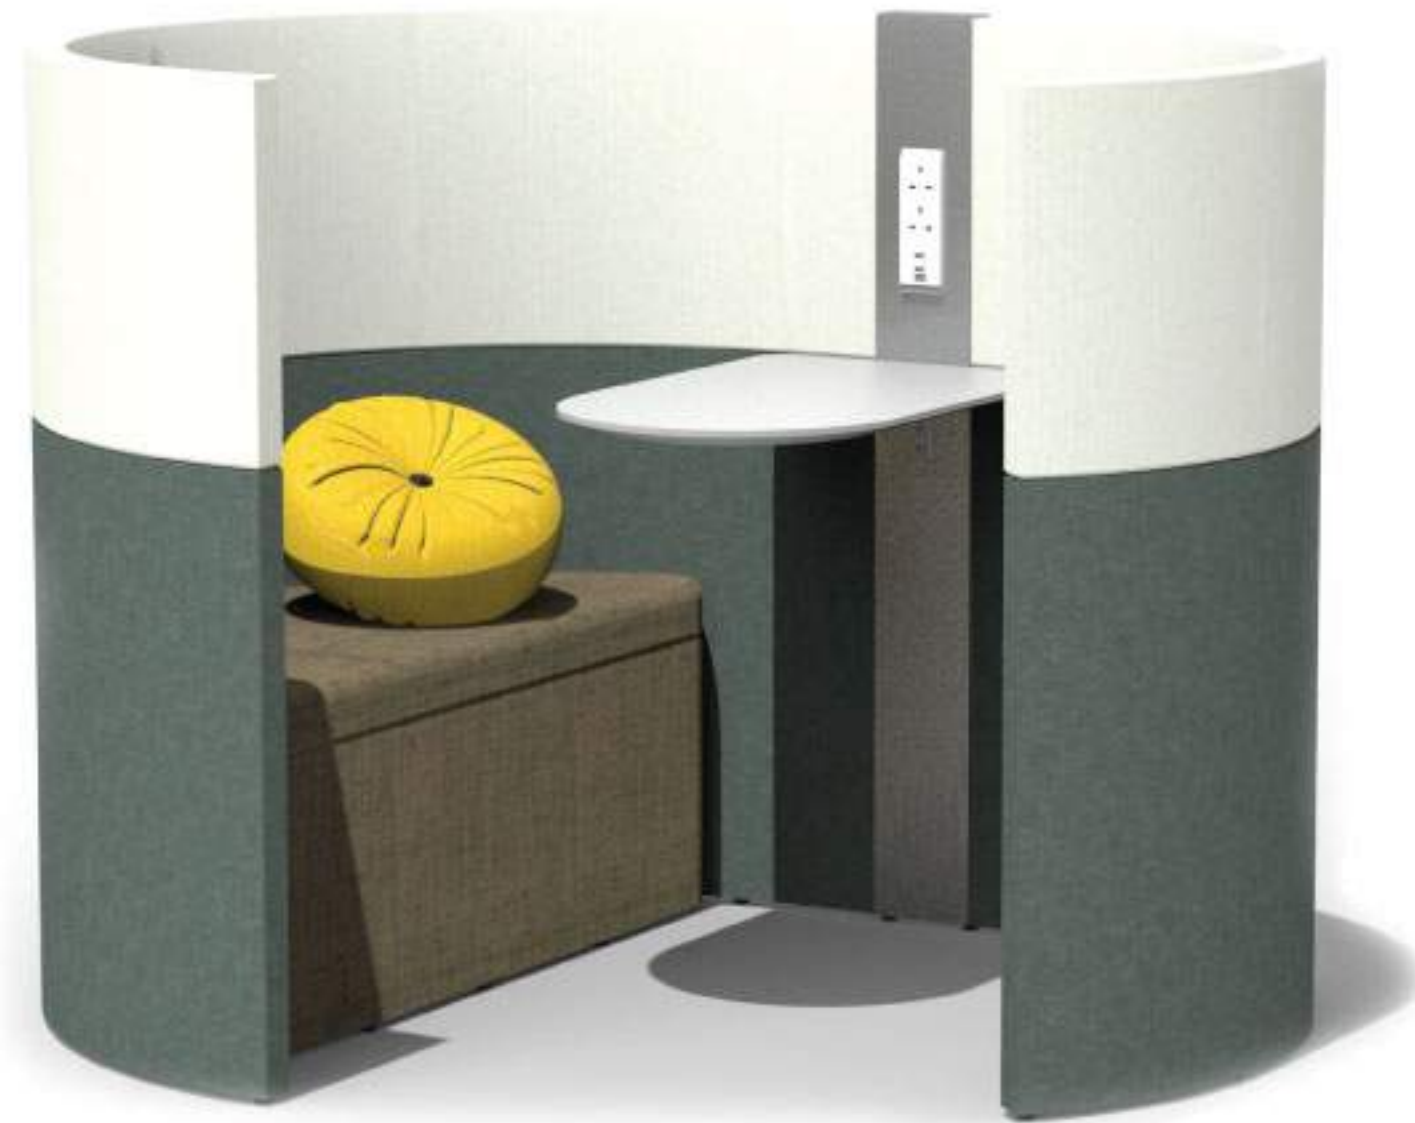

In modern workplace, vast amounts of information needs to be shared, analyzed, distributed and discussed. Workplaces that encourage interaction and collaboration are vital to creating an atmosphere of information sharing ,knowledge creation. flexibility and communication

CONCENTRATION

Allowing individuals to perform distraction-free work, which is supported in the physical environment by some combination of seated or higher privacy panels, and non-assigned private spaces.

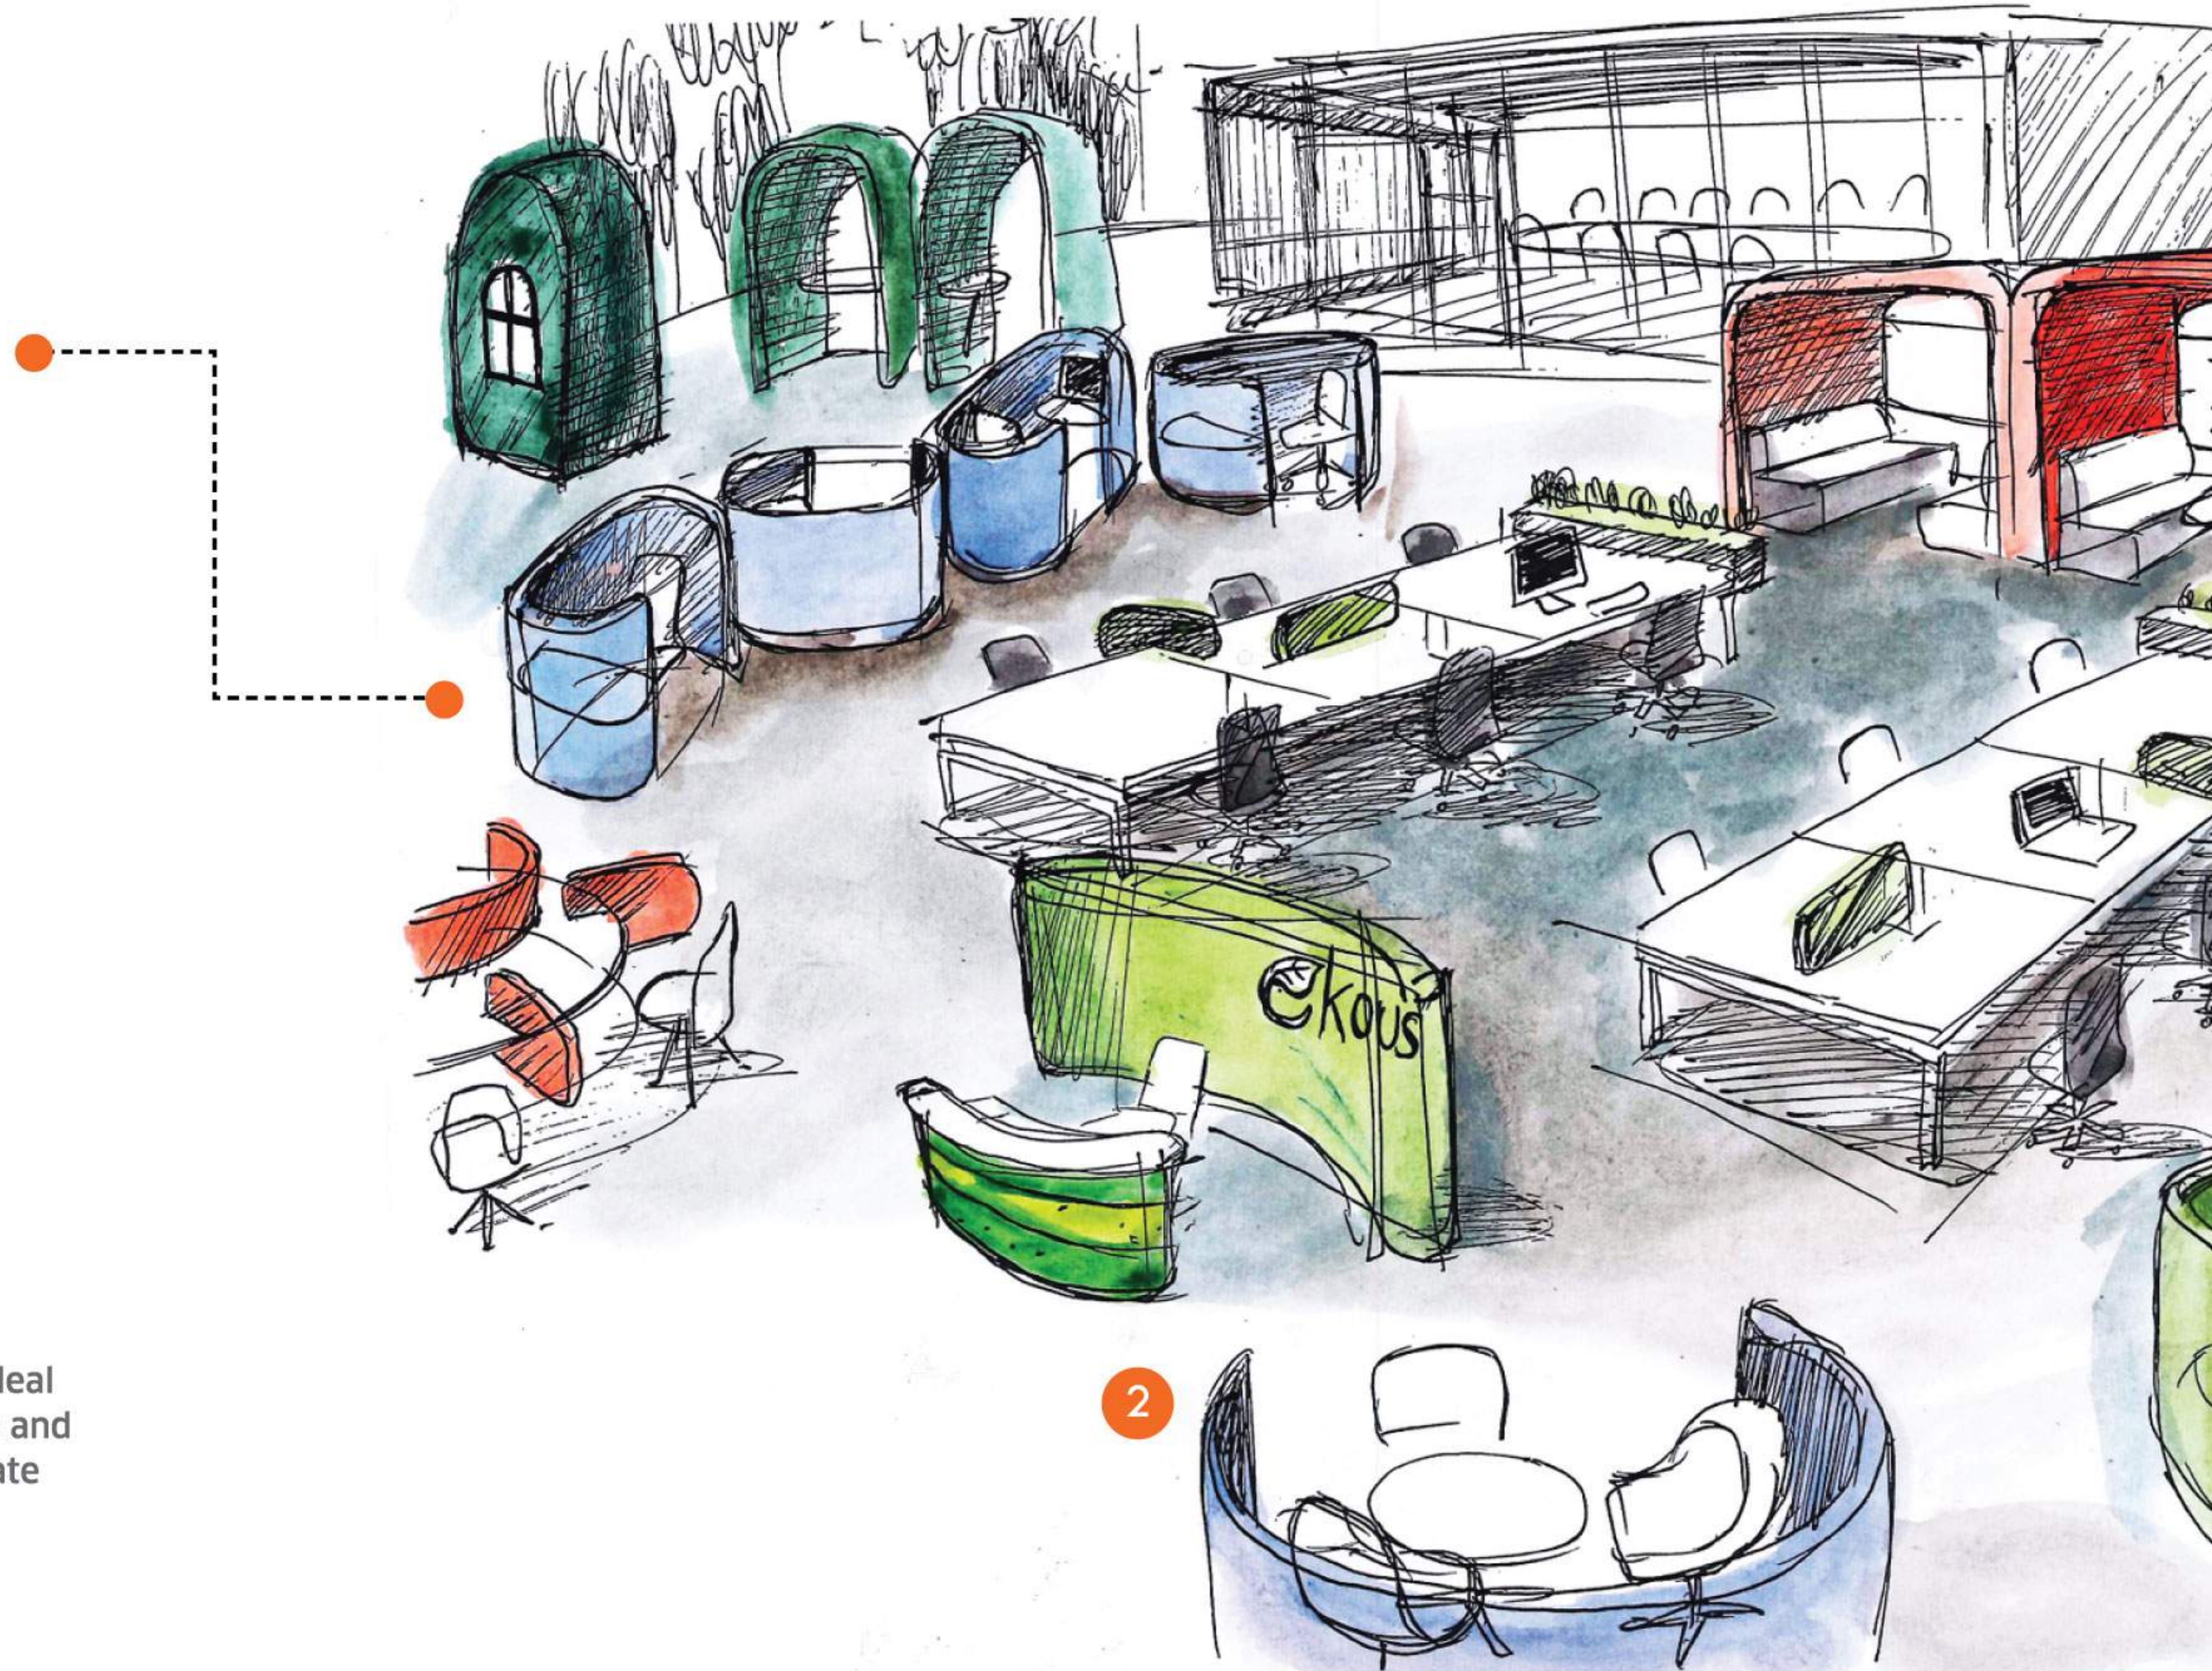

SOLO WORK POD

Individual privacy workpod for highly concentrated work areas. Sunyi Solo provides solution for a self-contained workspace, it has an acoustic properties, helping to zone out surrounding noise, making it the ideal to work productively without interruption.

Our range of Sunyi acoustic pods is an ideal solution for offices looking for a flexible and easily manageable way of creating private spaces with noise control.

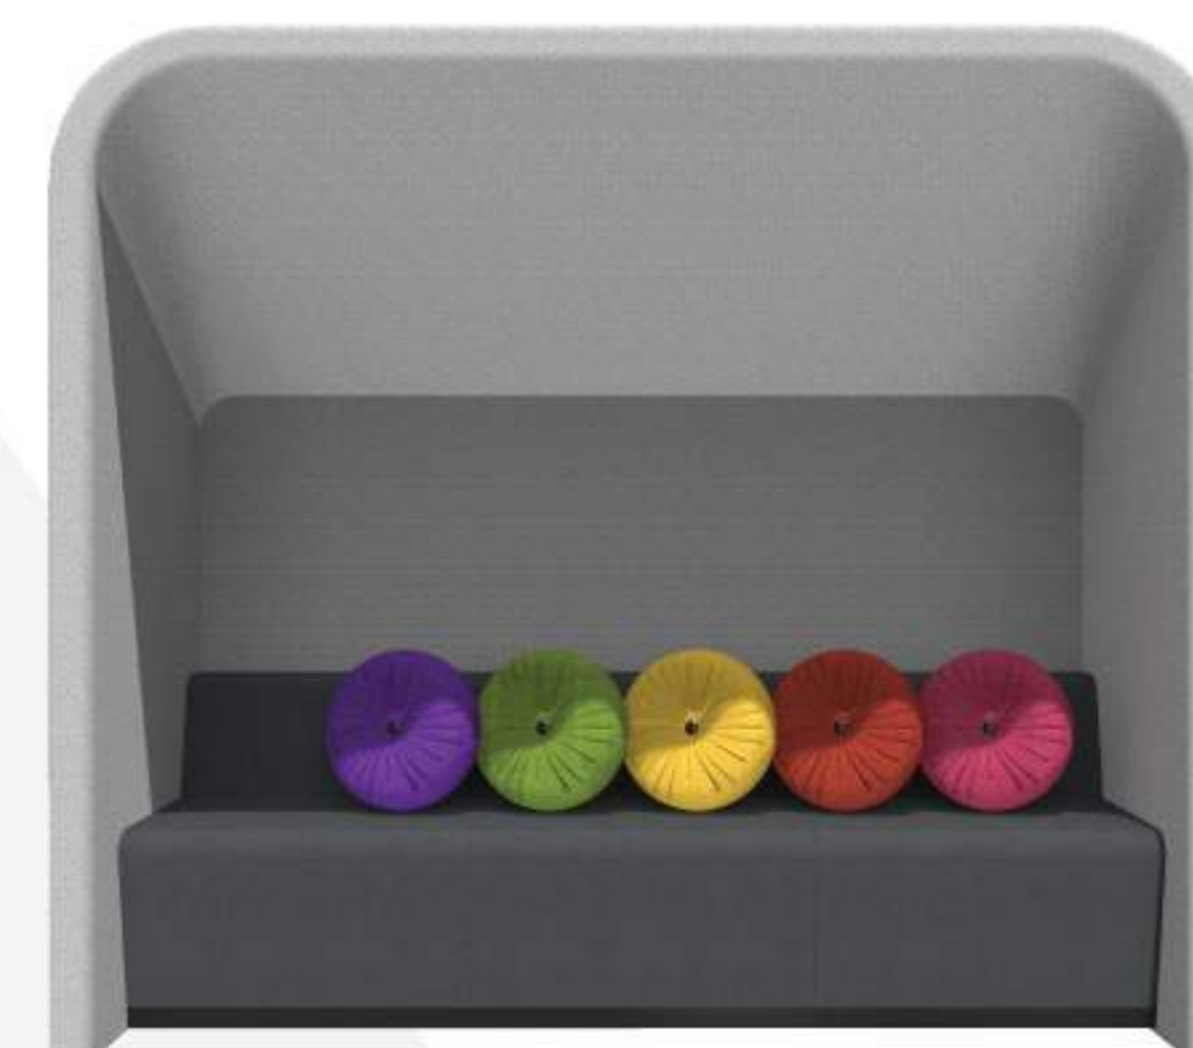

GROUP

Every business has its own identity, objectives and individual use. To revolutionize workplace settings, various products have to be in place.

SUNYI - QUAD

Non formal discussion areas with modular structure for quick fix setting that accommodates 4 to 6 person. Designed so that when unexpected meetings occur, you have a third zone to go without the need for a formal meeting room.

1 SUNYI - HUB

It offers face to face collaboration which encourages creative and spontaneous meetings between colleagues. Privacy can be maintained via the acoustic benefits of the design incorporating the acoustic panel with seating with an integrated roof.

2 SUNYI - ARC

The curved shape pods which are an ideal fit for open plan areas, providing breakout zones and one to one meeting spaces. Freestanding with informal seating designed to reduce reverberation time and improvement of speech intelligibility.

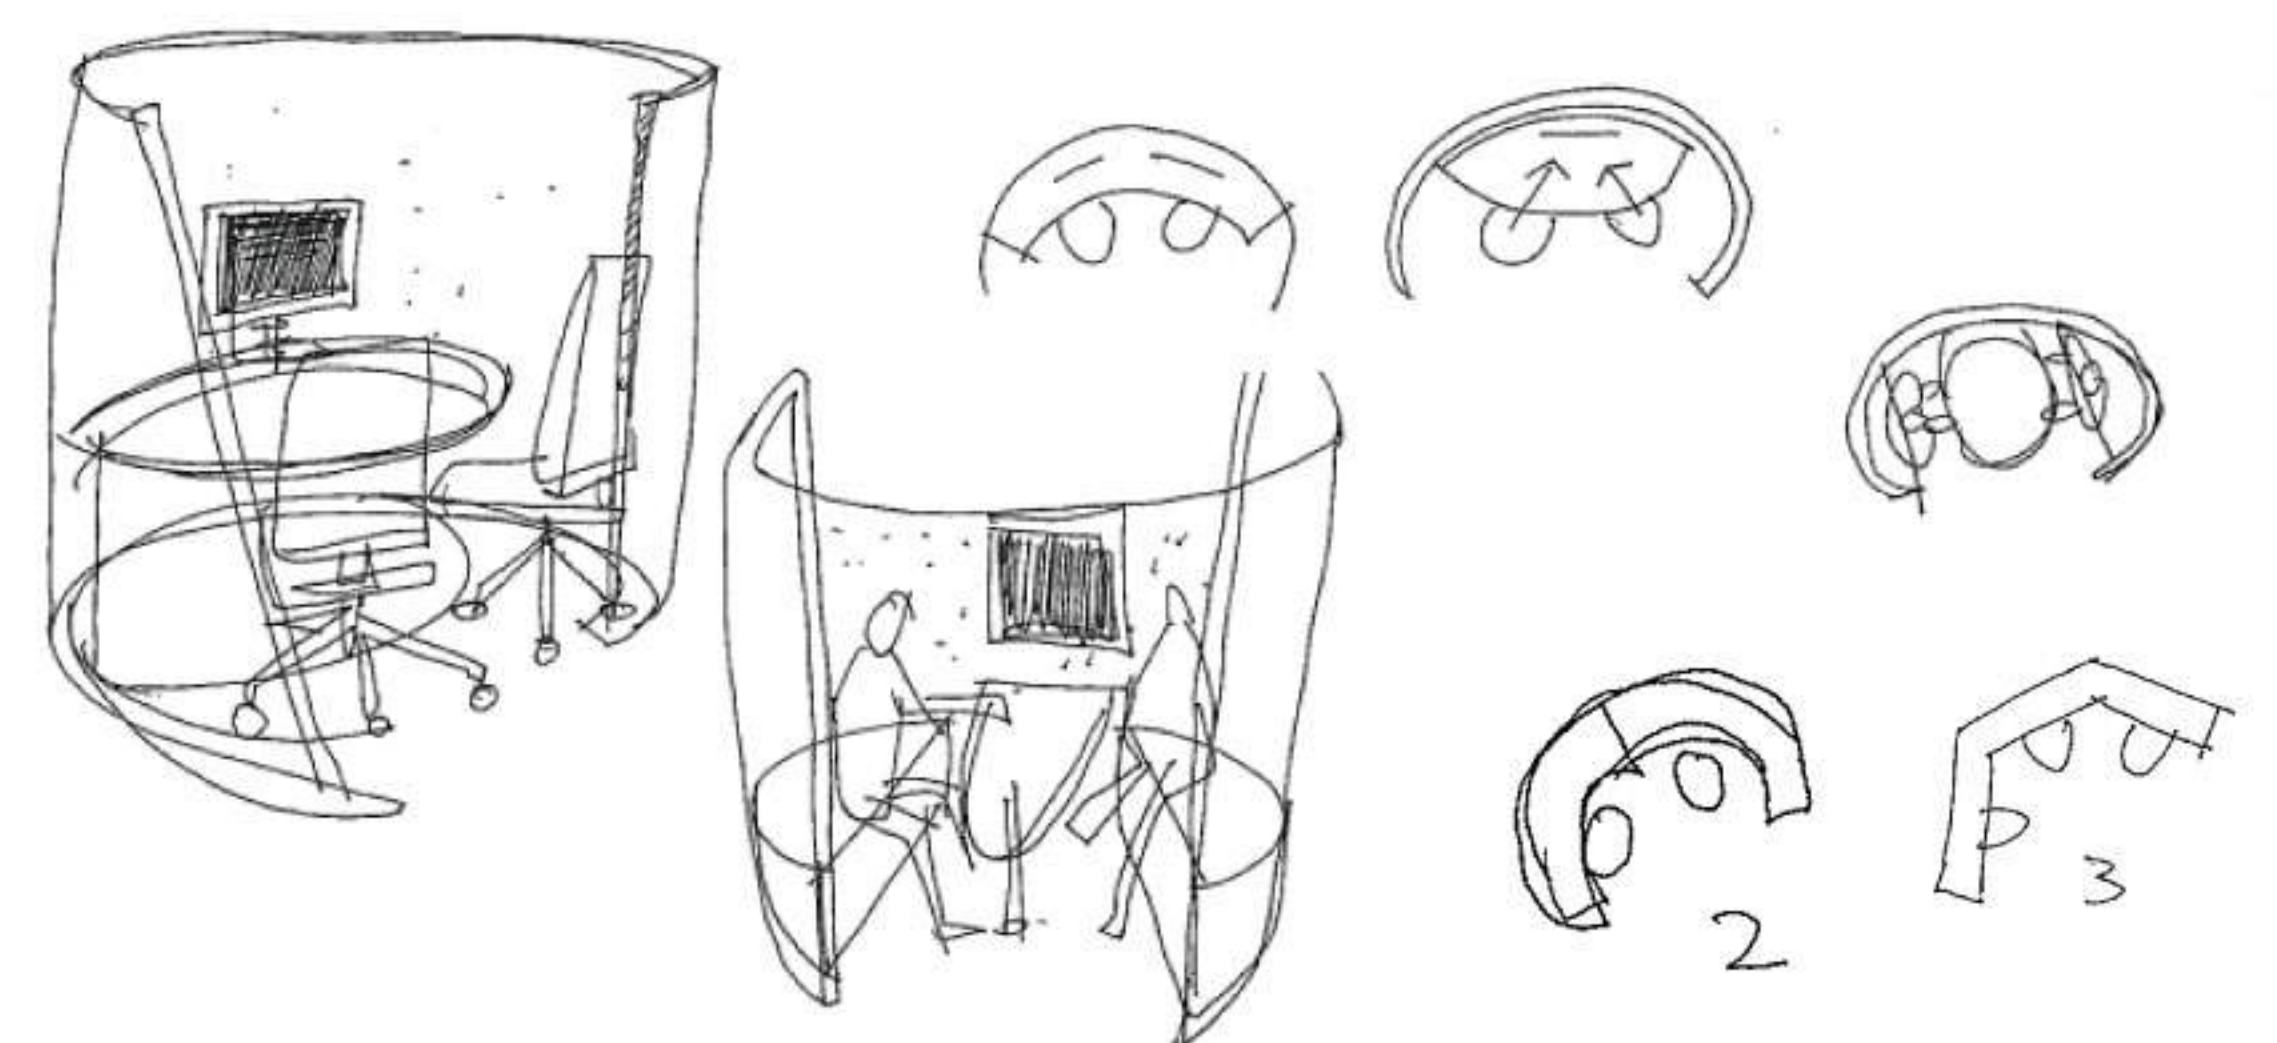

CONCENTRATE

Private workspace for concentration and productivity.

COMMUNICATE

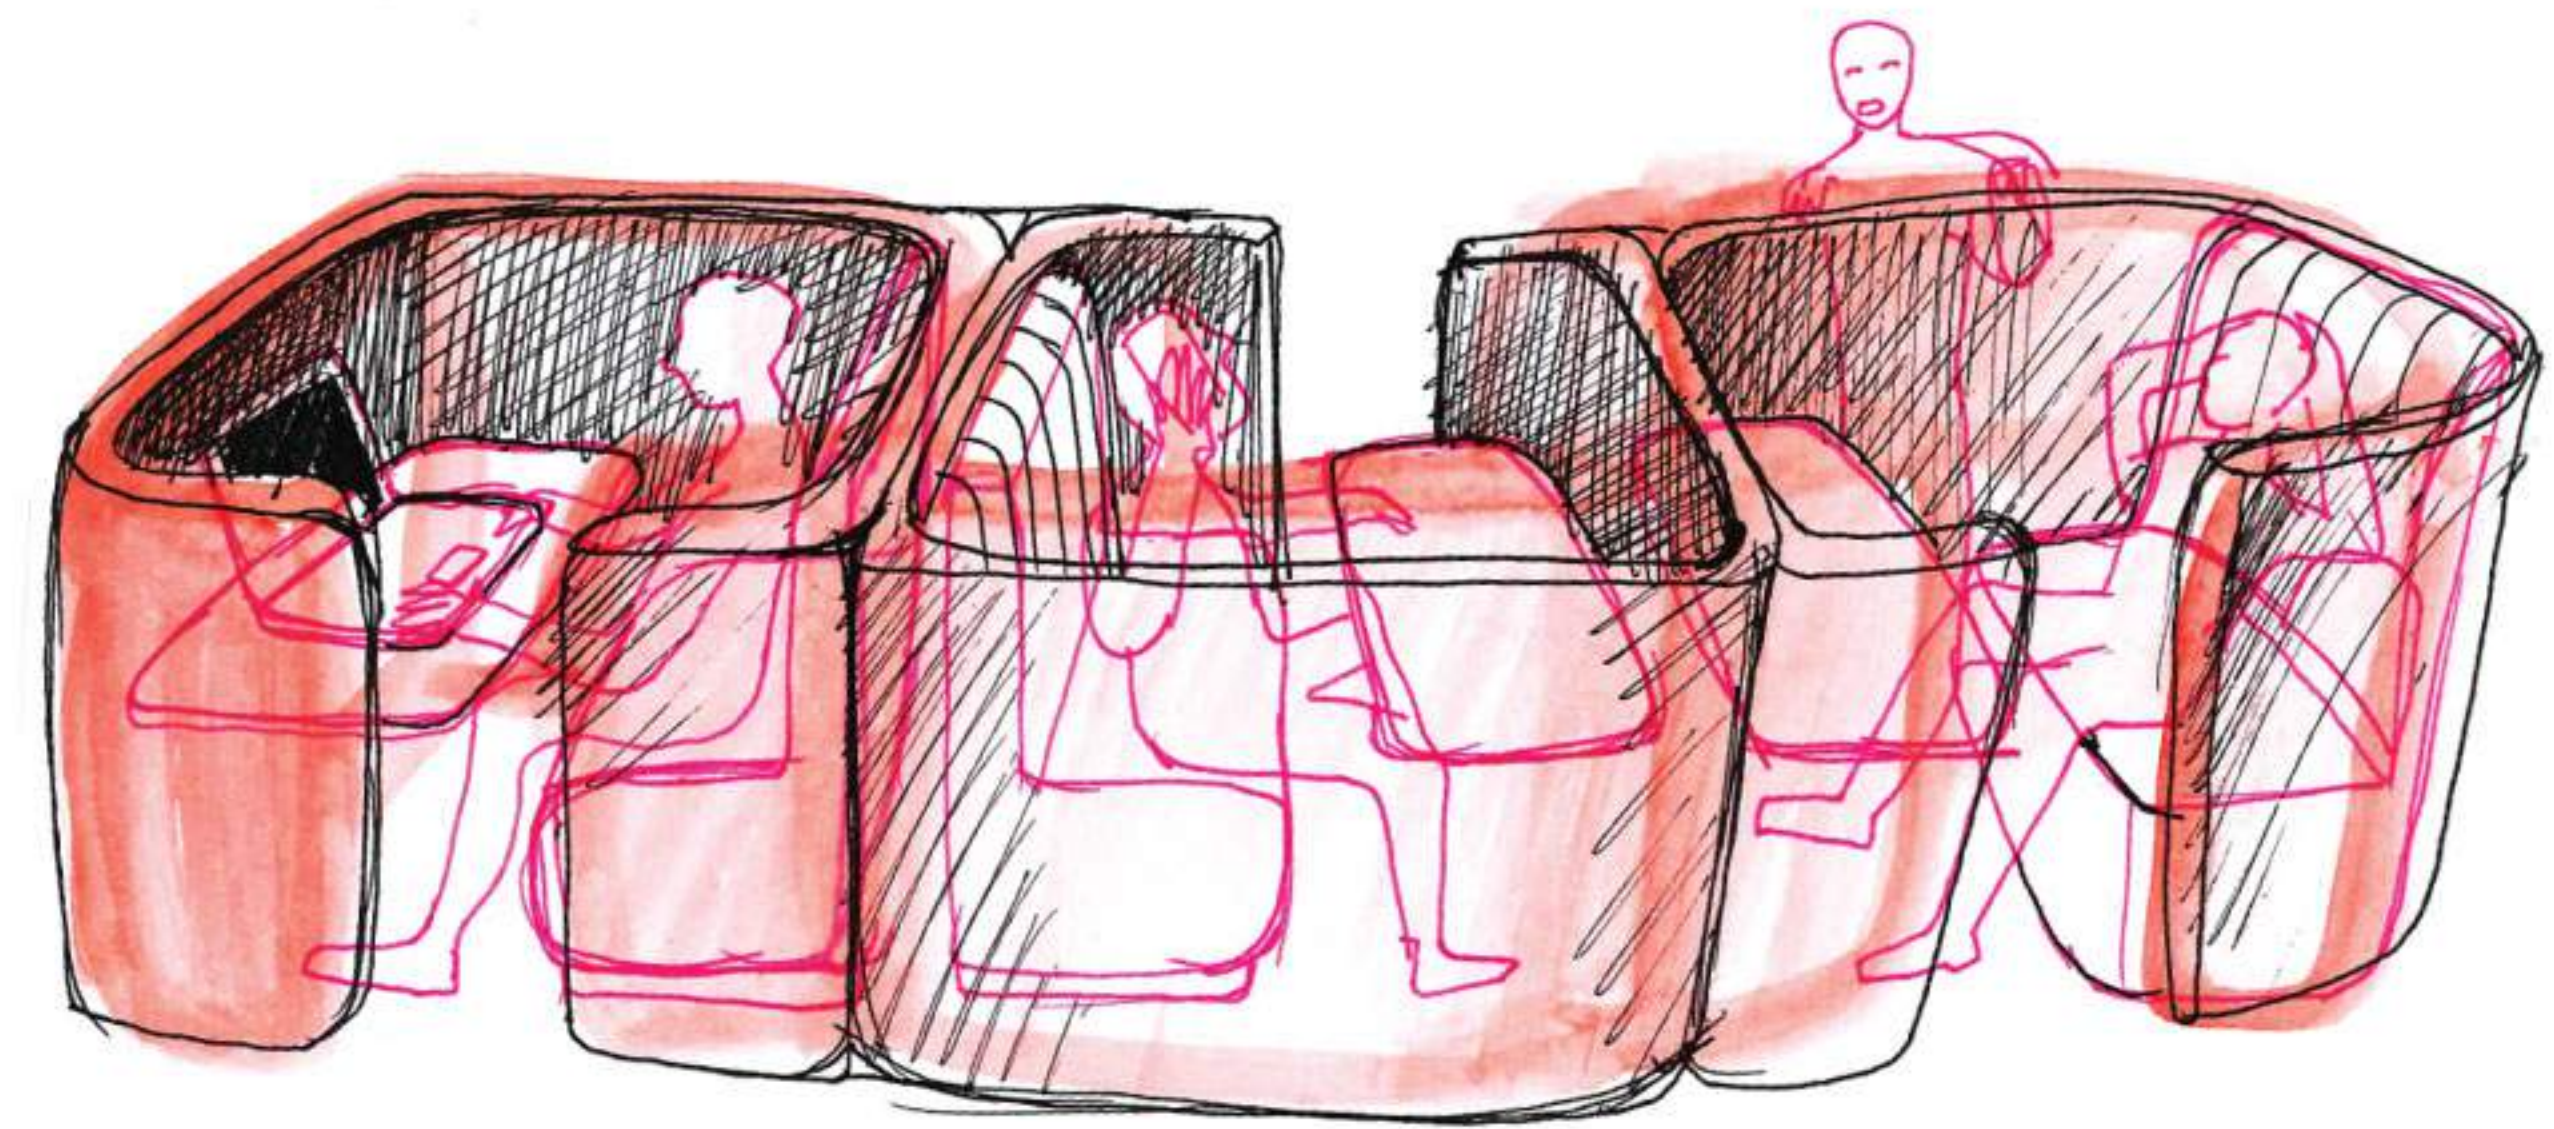

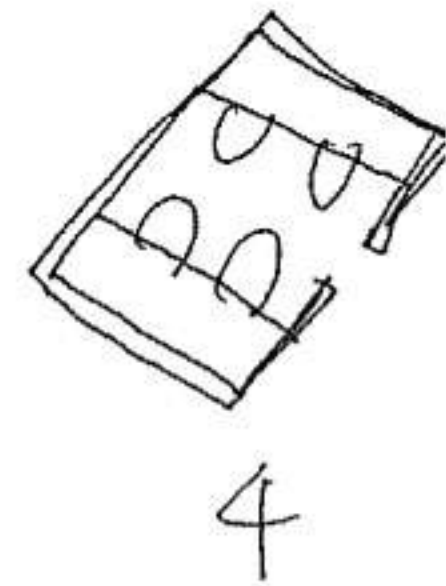

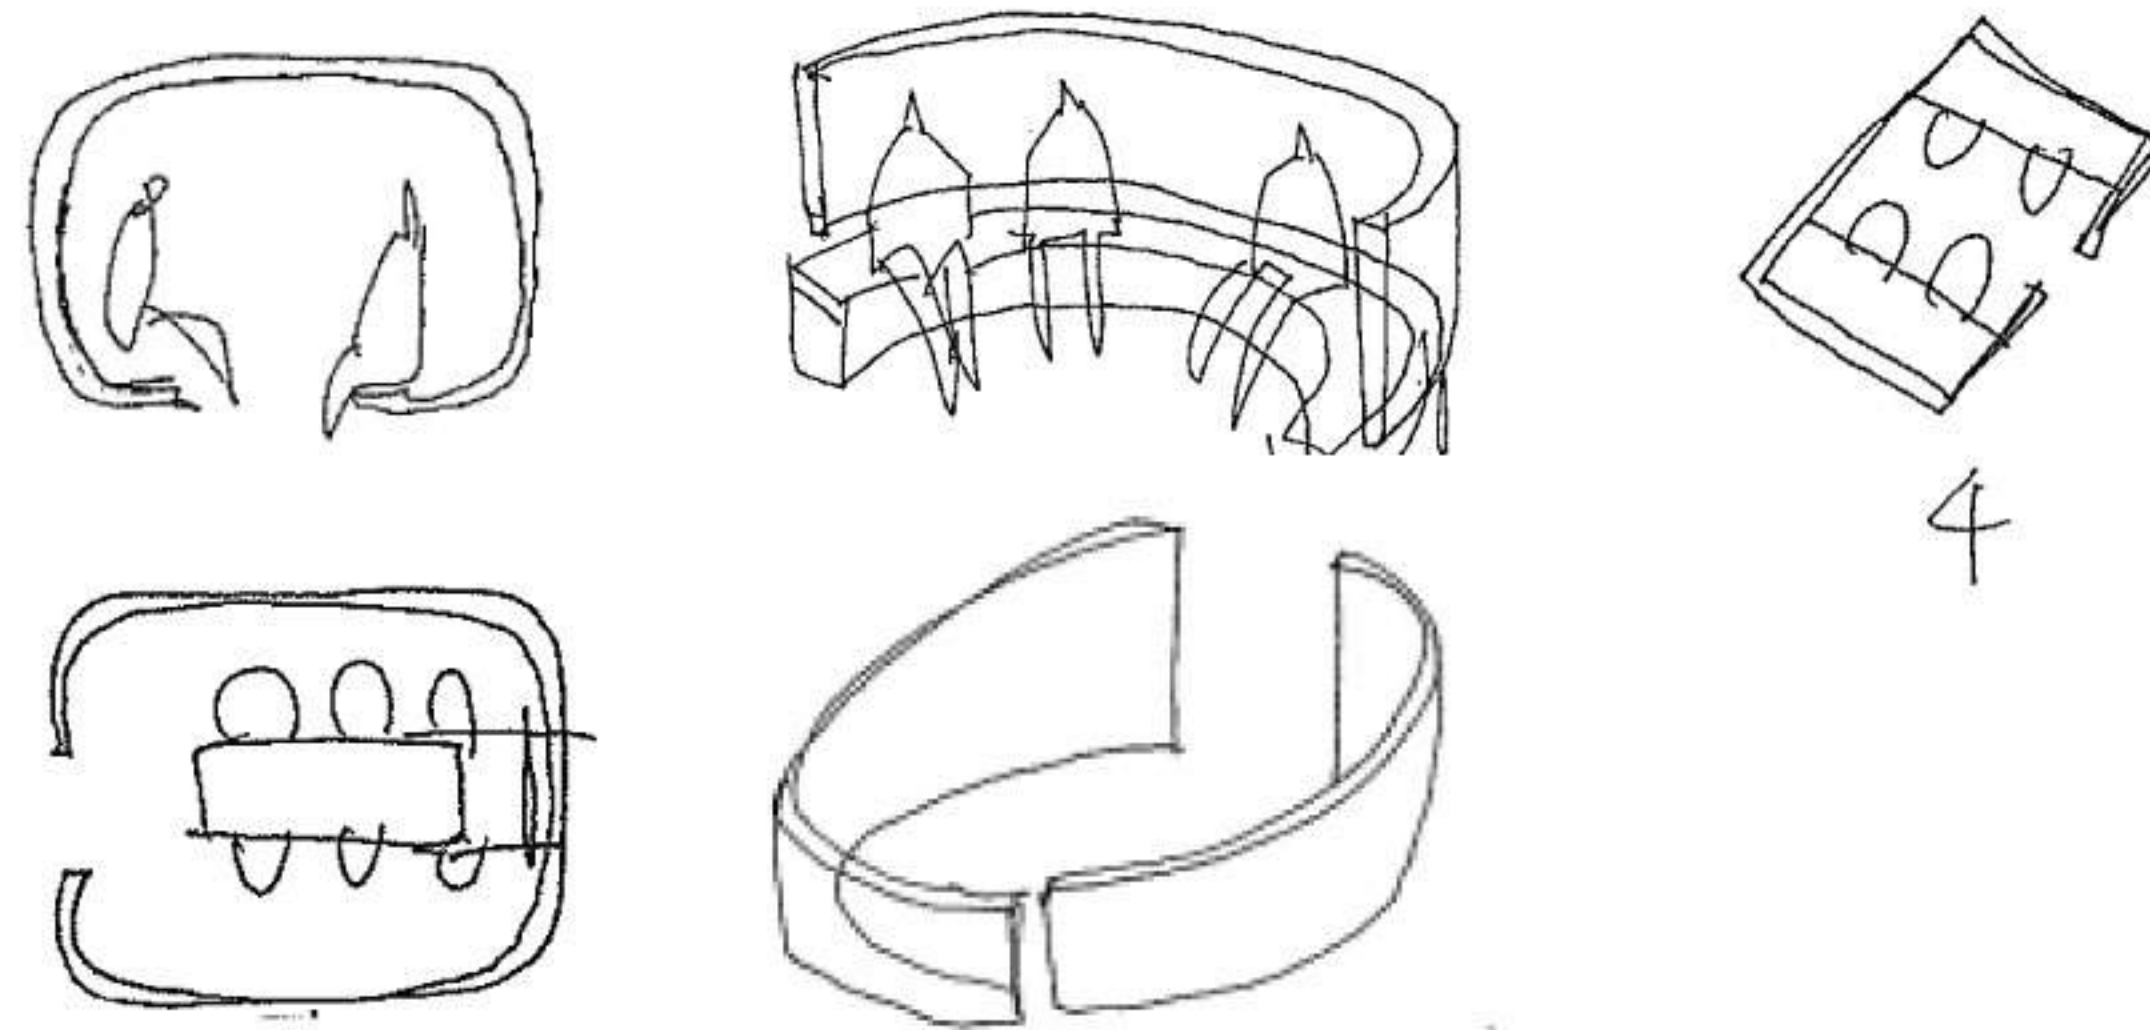

Virtual communication via multi media device require comfortable space with good acoustic space.

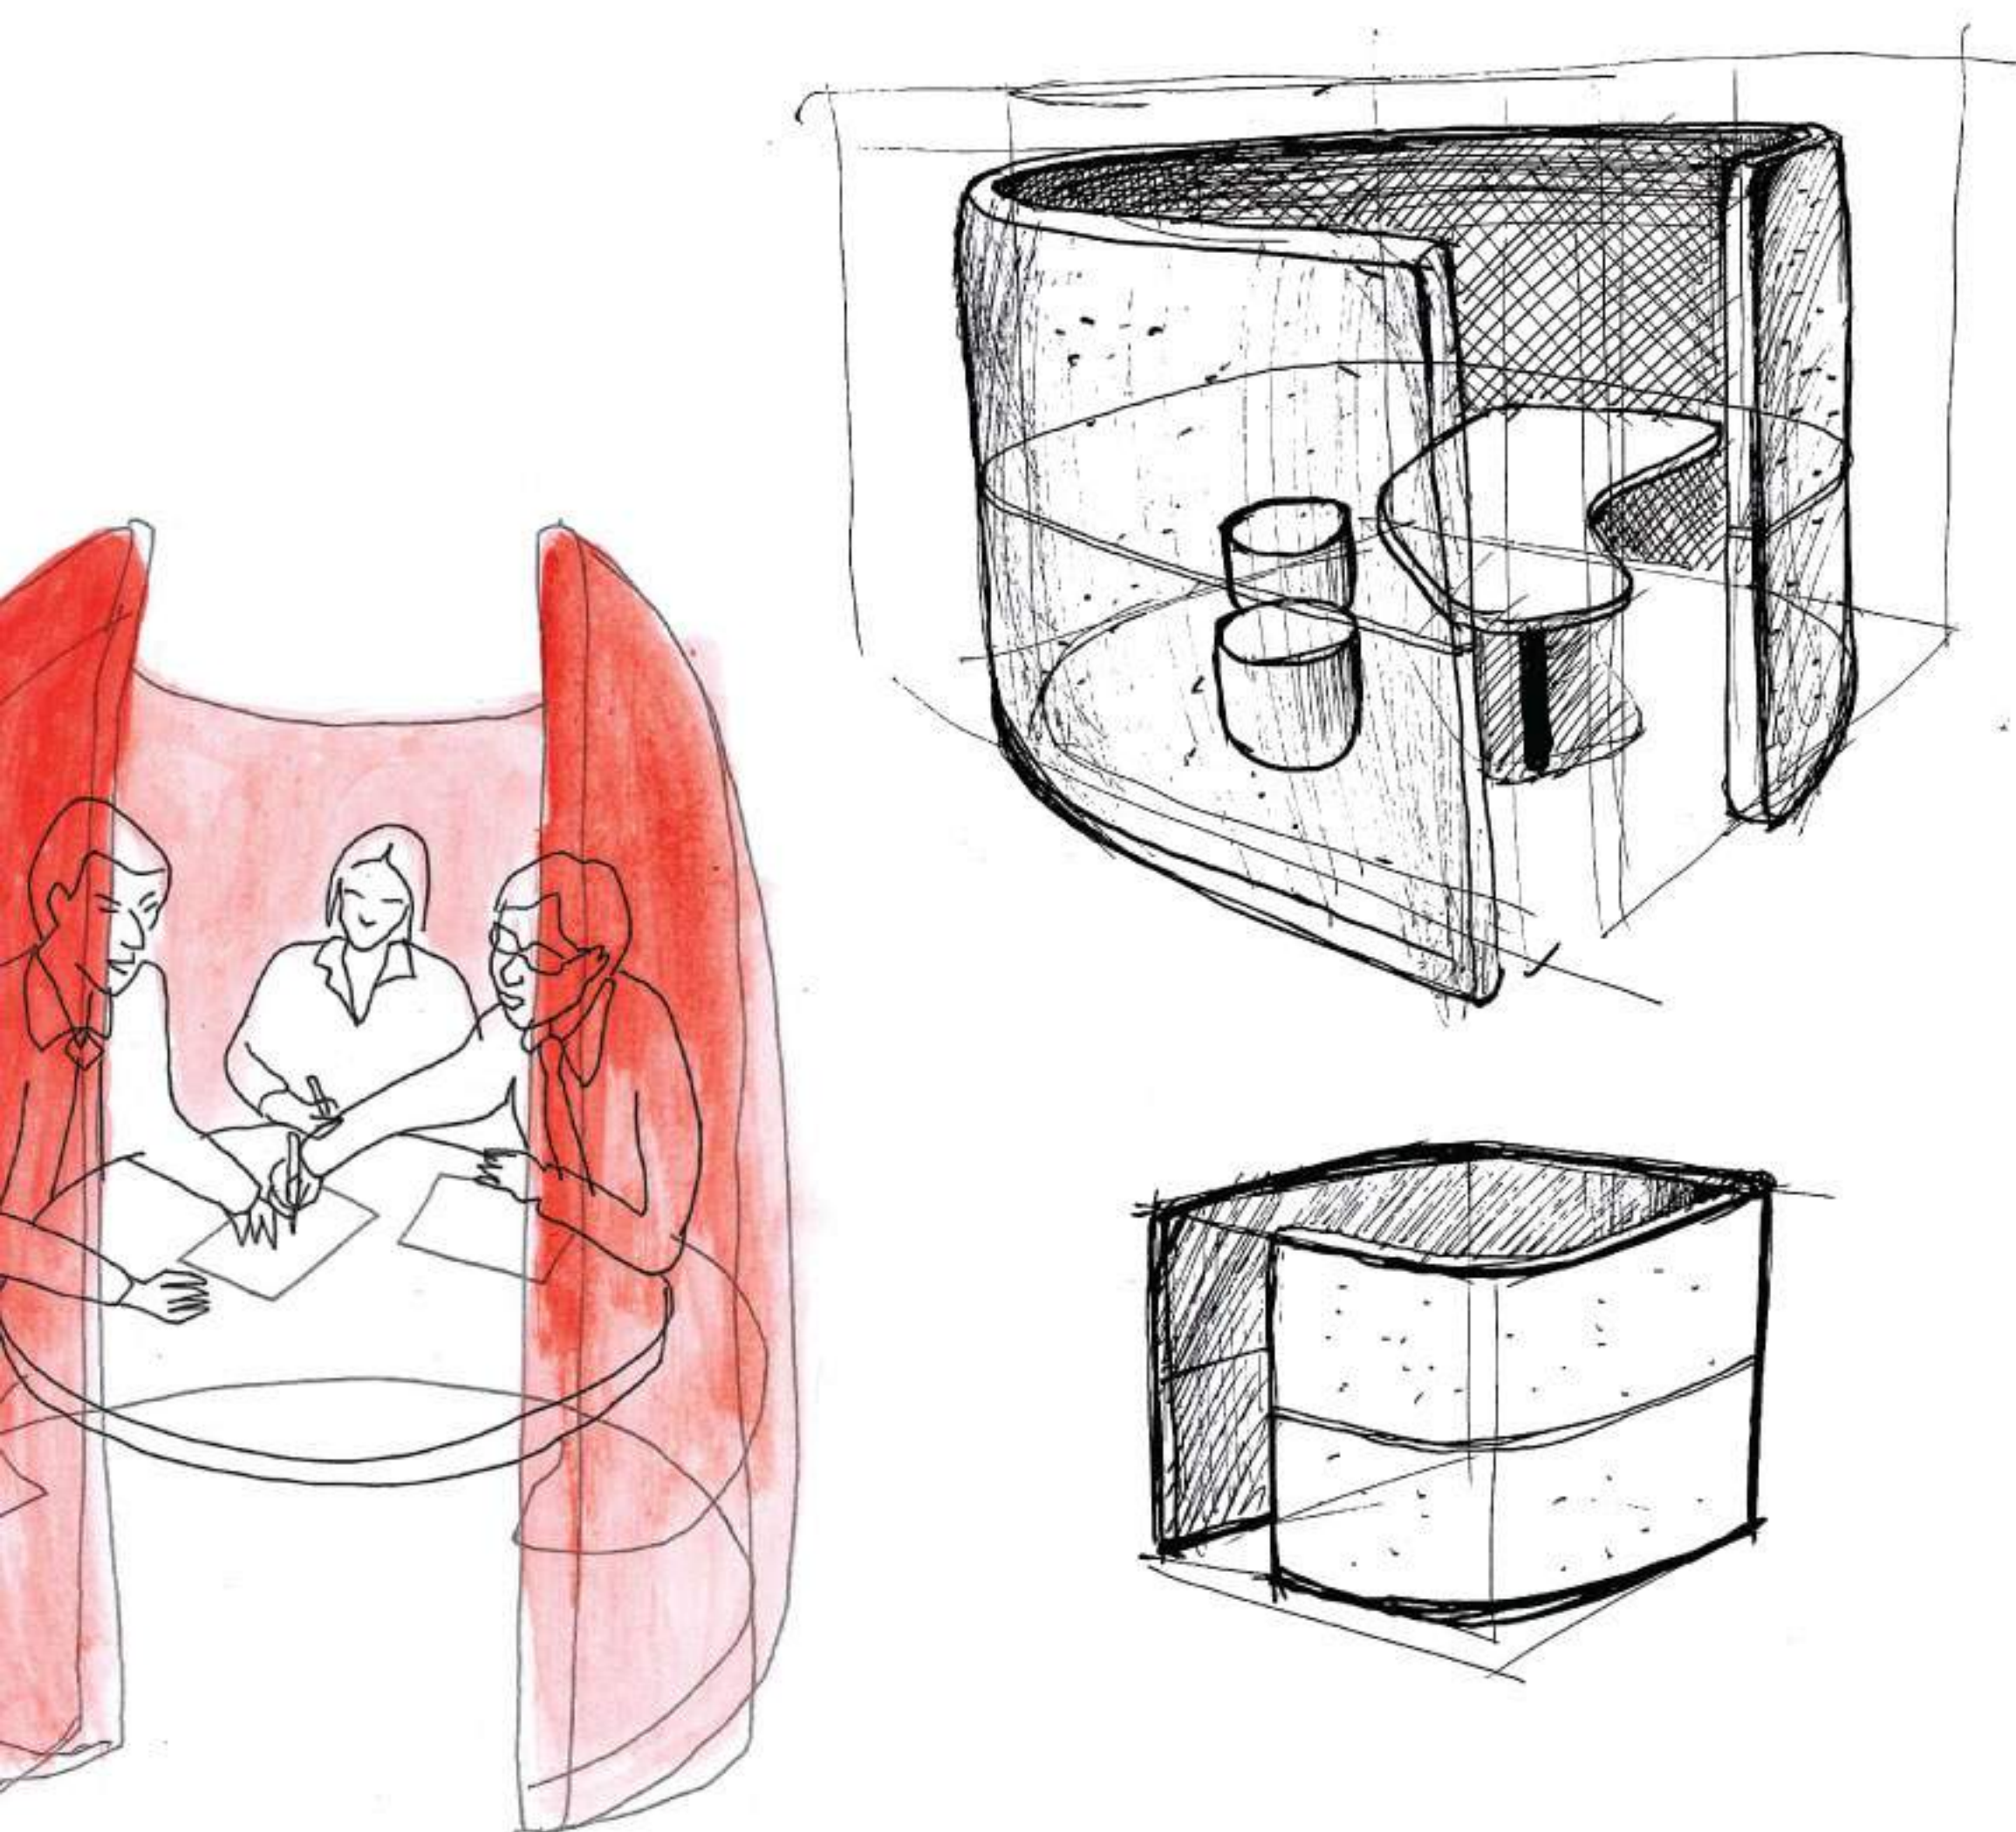

COLLABORATE

Office meetings no longer have to be determined by private room availability and complicated schedules. Be spontaneous and collaborative.

The curved panel is sound absorbing and made from recycled polyester fiber board with bendable properties and good porosity tissues. It is extremely effective at absorbing ambient noise, which helps to keep conversations private within the pod while reducing the number of distractions from outside.

A watercolor illustration featuring a green, hourglass-shaped object with a blue, textured center. The green parts are rendered with soft watercolor washes and black outlines. The blue center is filled with a dense, cross-hatched pattern. To the right, a yellow, curved object, possibly a pencil or a piece of wood, is shown with a black outline and some internal shading. The background is plain white.

Sunyi

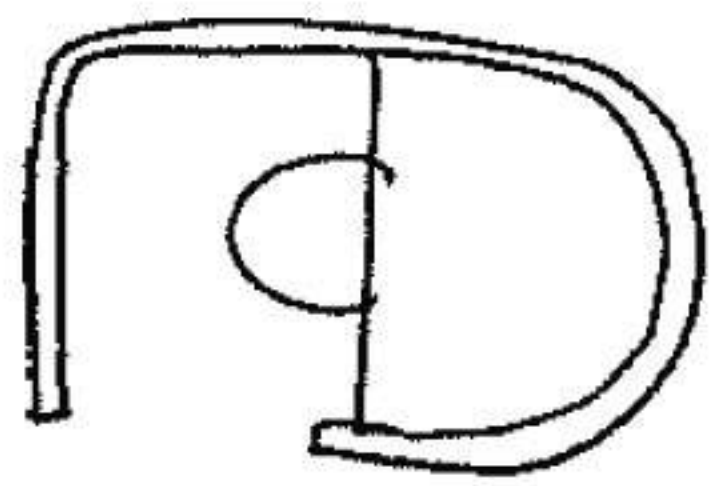

Closed areas are gradually being replaced by open plan offices that allow for more collaborative work. Employees are no longer isolated which can greatly impact productivity and the overall atmosphere in the office. For all the advantages of open plan layout, the level of sound can often be a drawback and create distractions.

Our **SUNYI** pods are free standing screens that create a secluded space for privacy, meetings and distraction-free zones. It is practical, modern and contemporary look.

SUNYI

SOLO WORK POD

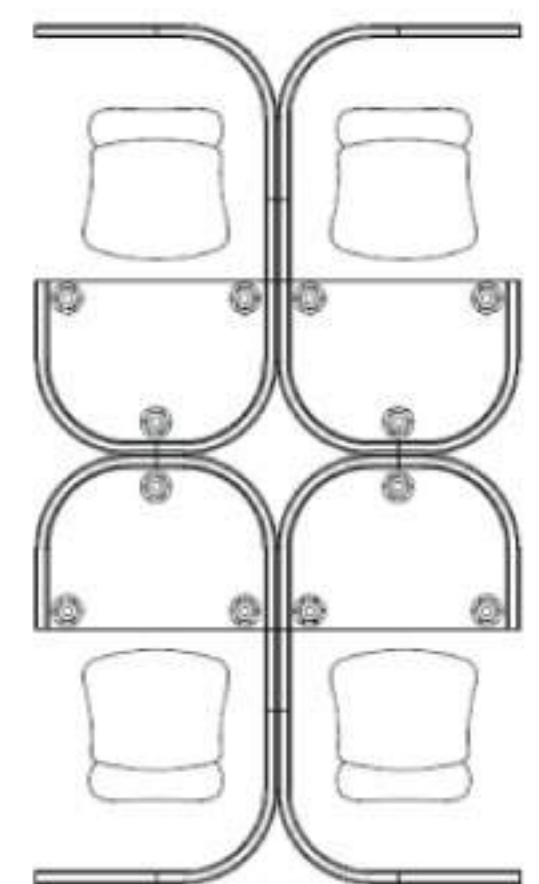

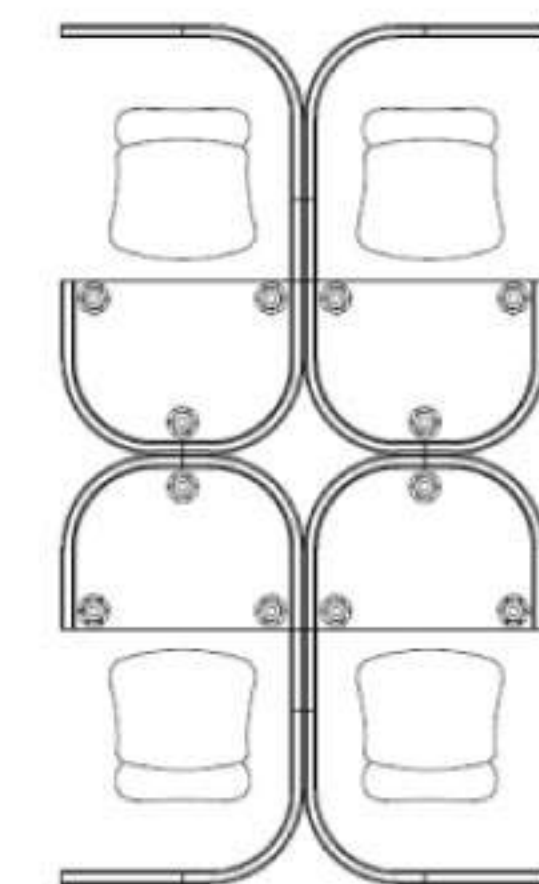

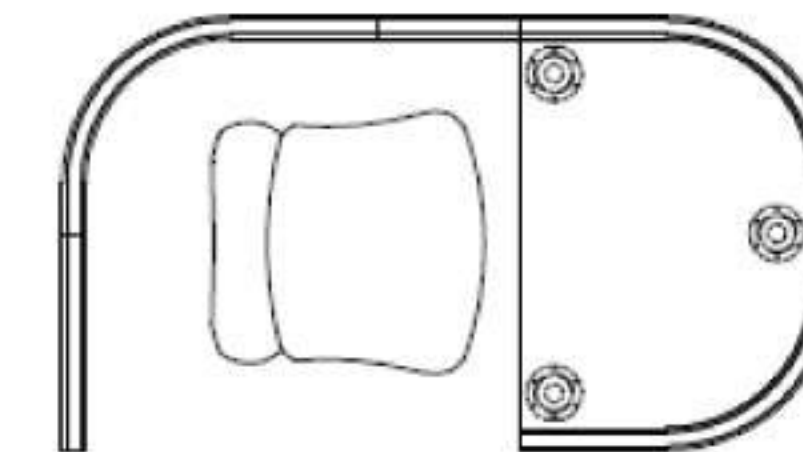

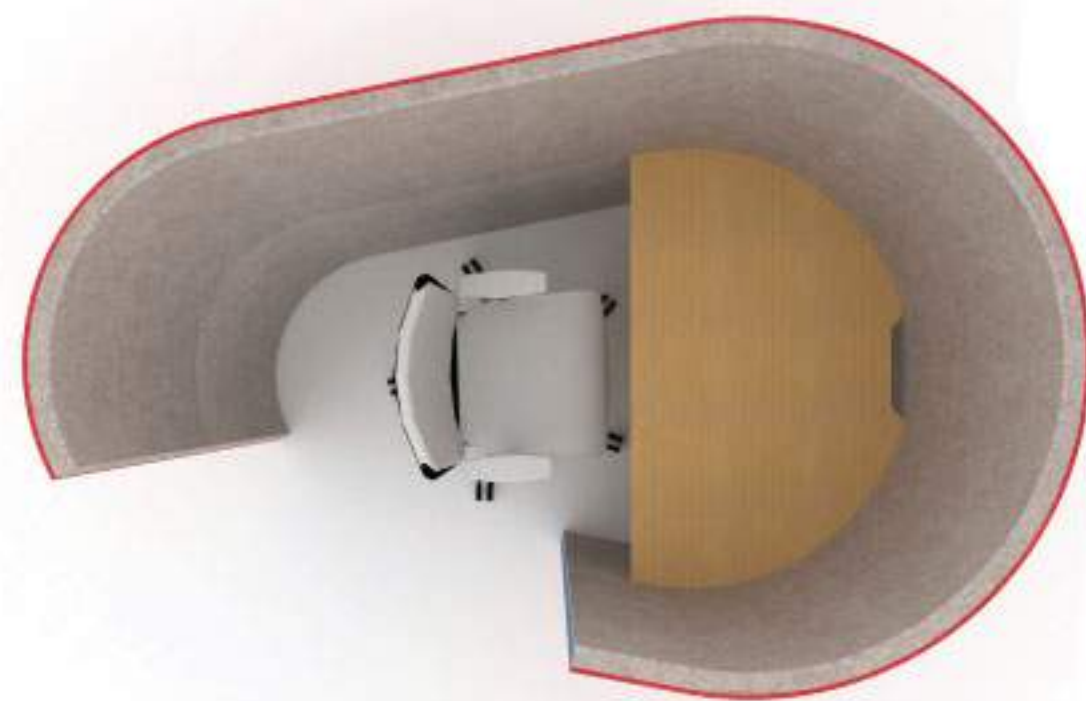

1 SEATER

The Solo pod is proven solution where each employee has their own privacy space that makes it easier to perform concentrated-intensive work and reduces opportunities for free communication and spontaneous interaction.
